

Wessex International Healthcare Consortium (WIHC): brokering world-class health services across the world

What was delivered in 2016/17?

- Member organisations across all four of the AHSN's counties are engaged
- Whole of Wessex geography represented on the WIHC Advisory Board
- WIHC is a founding member of the UK International Health Management Association (UKIHMA)
- Strategic partnership with Healthcare UK and Department for International Trade
- Networks developing in international target markets
- WIHC has responded to over twenty international opportunities on behalf of members
- Collaboration with the UK Association of Southeast Asian Nations (ASEAN) Business Council and Chinese British Business Council (CBBC)

What's planned for 2017/18?

- Generating new inward investment into the Wessex region and by meeting the business needs of international organisations.
- Providing opportunities for International organisations to showcase products and services that, if implemented, would improve patient care and generate cost savings for the NHS.
- Increasing cohesion amongst AHSN members to export high quality, safe services and products to international customers.
- Workforce development opportunities; increasing local workforce growth through placements with international customers and developing our workforce through providing exchange opportunities internationally
- Industry involvement; supporting Wessex and South Coast businesses to win commercial health and life science contracts overseas, bringing new investment into the UK

Networks

developing in international target markets
