

Did you know?

£1 in every £7 spent by the NHS is spent on medicines

352

community pharmacies
dispensed over

31 million

prescription items in
Hampshire last year.

Hampshire and Isle of Wight GP practices spend around

£300 million

per year on medicines

The majority
of patients are
treated safely
but we do
know that;

Roughly
30-50%
of medicines are not
taken as intended

Avoidable
medication errors
cost the NHS
**£98.5
million**

Harm can
occur when
patients
move
between care
settings.

*But don't
panic!*

The Hampshire and Isle of Wight
Pharmacy Collaborative have detailed
plans in the following key areas:
