CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

What is CSIP? - We are a growing community that connects individuals, teams and projects across health and care in the areas of innovation, quality improvement and patient safety. We currently have over 320 members across Wessex. CSIP is supported by the Wessex Patient Safety Collaborative (PSC).

What is Wessex PSC? - We work with individuals, teams and organisations to increase capability around safety improvement. We offer engagement in a series of projects and events targeting local and national areas of safety priority. We do this in partnership with patients and we encourage networking and sharing to support the spread of good practice across Wessex.

Connecting and sharing across Wessex to improve patient safety

Focus Topic

The Wessex PSC Quality Improvement Hub (QIHub)

"In order to practise medicine in the 21st century, a core understanding of quality improvement is as important as our understanding of anatomy, physiology and biochemistry". (WPSC QIHub from Stephen Powis, Medical Director, Royal Free London NHS Foundation Trust, 2015. Academy of Medical Royal Colleges)

One very effective way of helping to increase QI capability is to provide staff with access to high quality resources. In fact many healthcare organisations, professional bodies and Royal Colleges have developed collections of QI materials for exactly this reason.

Wessex PSC QIHub was developed to make this QI “evidence base” easily available to healthcare staff across Wessex who are looking for practical assistance with QI projects, or who are simply interested in developing their understanding of QI Science.

QIHub includes resources from, amongst others: The Royal College of Emergency Medicine; The Royal College of Physicians; The Royal College of General Practitioners; The Royal College of Radiologists; West of England Academic Health Science Network; NHS Scotland and the (US) Institute of Healthcare Improvement.

By signposting some of the most relevant sites we hope that QIHub will be useful by helping staff to quickly find high quality resources to help them with their healthcare related QI projects.

QIHub can be accessed [here](#)

Please let us know if you find the QIHub helpful and if you have any suggestions around materials or links we could add.

One very interesting and accessible resource (amongst many) is the US Institute of Healthcare Improvement's Whiteboard Video Library with recorded talks on a number of QI topics which can be accessed [here](#)

The Royal College of GPs made a good point in their material when they said:

Quality Improvement (QI) helps us identify what works well and where we can make changes. In primary care, we don't have time or resources to spend on things that don't work, don't serve our patients, and that could be done more efficiently or effectively. QI is a commitment to continuously improving the quality of healthcare, focusing on the preferences and needs of the people who use services. (WPSC QIHub from Royal College of General Practitioners 2017)

Geoff Cooper - Programme Manager - Wessex PSC - March 2017

Wessex News

Call for articles

The Wessex PSC would love to hear about what you're doing locally to improve quality and safety. Tell us in 150 - 250 words and we'll share with the rest of the community in this section.

Email your articles to us at patientsafety@wessexahsn.net and feel free to include pictures.

The 2nd annual Wessex CSIP Safety and Improvement Conference

We are pleased to announce that registration is now open for the 2nd Wessex CSIP Safety & Improvement Conference on 14 June 2017. This event is being held at the Grand Harbour Hotel, Southampton and is free to attend (registration details below). The event is jointly hosted by Health Education England (Wessex) and the Wessex Patient Safety Collaborative.

Please join us in June to meet other members of the Wessex Community of Safety and Improvement Practice (CSIP); to hear about success stories of work and initiatives taking place in patient safety and improvement; and consider how these can be spread across the region – starting with you and your organisation. Please follow this link to secure your place: [Wessex CSIP Conference - link to registration](#) . To find out more please visit our [conference webpages](#)

Plenary speakers include:

- Martin Bromiley, OBE; Clinical Human Factors Group
- Professor Ged Byrne; Director of Education and Quality, Health Education England (North)
- Dr Julia Harris; Consultant in Emergency Medicine, University Hospital Southampton NHS FT
- Patricia Miller; Chief Executive, Dorset County Hospital NHS FT

- Sir Stephen Moss, KBE; Non-Executive Director, Derby Hospitals and HEE
- James Titcombe, OBE; Patient Safety Specialist, Datix

Workshop themes include Schwartz Rounds, End of Life Care, Getting Genuine Patient Engagement verses Tokenism, and Measurement for Improvement.

For any conference queries please contact qualityimprovement.WX@hee.nhs.uk

Genomic Medicine Centre

The 100,000 genomes project will transform the way patients with rare disease or cancer are diagnosed and treated. Click [here](#) to find out more and register.

Polypharmacy Workshop

What next? (Planning for Wessex)

30th March 2017

*Novotel Southampton Hotel, 1 West Quay Road,
Southampton SO15 1RA from 09.30-16.00hrs*

Wessex AHSN has been working with the NHS Business Services Authority and NHS Digital to develop Polypharmacy Comparators. These will enable the identification of patients prescribed multiple medications who may be at risk of harm as a result.

We are holding a [workshop](#) to demonstrate the comparators and work in groups to develop local plans to address polypharmacy. We will look at what the data shows for Wessex, hear patients' perspectives and identify the areas to focus on.

If you are working in the frailty, older peoples, or long term conditions fields this workshop will allow you to actively contribute to the development of plans to address polypharmacy in Wessex.

Please join us by registering [here](#) and feel free to circulate as appropriate to your networks.

Wessex Emergency Department Quality Improvement Network

The Wessex Patient Safety Collaborative [PSC] would like to invite you and your team to the first Wessex ED Quality Improvement [QI] Network meeting.

Following the success of a half day event in December we plan to meet quarterly at different ED venues across Wessex to focus on patient safety and QI.

Monday 27th March 2017

UHS, Tremona Rd, Southampton SO16 6YD

From 0930 to 1230

Followed by optional lunch and tour of UHS ED
*Please attend UHS ED Reception and ask for the
ED Seminar Room*

[Eventbrite registration link](#)

It is essential that all attendees book a place via Eventbrite.

<https://www.eventbrite.co.uk/e/wessex-emergency-department-quality-improvement-network-tickets-32085273918>

For more information about the events or registration please contact the PSC team at:
patientsafety@wessexahsn.net

Please share this flyer with colleagues in your multi-disciplinary ED team, with your QI staff and patient representatives.

National News

NHSE Webinars on the Innovation and Technology Tariff

The Webinars are intended to outline to trusts and CCGs the ITT procurement and reimbursement process. The sessions are on March 27,28,29 and the key audiences are CCG and trust procurement leads, medical and clinical directors/leads, nursing directors, transformation leads, STP leads and directors of surgical services. More information plus the booking links can be found [here](#)

£1.5M available for up to 20 teams

to test and develop innovative ideas and approaches to improve health care delivery and/or the way people manage their own health care in the UK.

- Each project team will receive up to £75,000 of funding to support the implementation and measurement of the project.
- Teams should demonstrate how their projects will lead to direct benefits or impact on patients.
- In this round, we are also interested in applications that make use of data analysis.
- Applications must be completed online by midday, Tuesday 28 March 2017.

To find out more click [here](#)

Wednesday May 3rd 0930 – 1630
Engineer's House, The Promenade, Clifton Down
Bristol, BS8 3NB

Programme includes:

Dr Mike Durkin, NHS National Director of Patient Safety at NHS Improvement, Consent and the Montgomery ruling and from *Learning, Candour and Accountability review*

Click [here](#) for more information.

Friday April 21st 09:30 – 16:30, Bristol, BS2 8AE

Mindful of the Gap

A full day free event

A time to share, reflect and learn from case studies to improve integrated healthcare.

Is it for you?

This event will benefit senior clinicians and managers in patient safety. It has been designed for those who wish to improve patient safety and reduce the cost of claims against their organisation.

Places are limited and interest in our previous sharing and learning events has been very high. Attendance is determined on a 'first-come' 'first-serve' basis – so don't delay!

East London 
NHS Foundation Trust

Using league tables to reduce missed dose medication errors on mental healthcare of older people wards (BMJ Quality)

The unintentional omission of medication is one of the most commonly-reported administration errors on hospital wards throughout the world.

Click [here](#) to find out more about this ELFFT QI project published in BMJ Quality.

AHSN Atlas of Solutions in Healthcare

Better outcomes for 100's more people with anxiety and depression

Hundreds more people have been able to get their lives back on track following mental health issues, thanks to a new approach in the Oxford AHSN region.

Oxford AHSN reviewed Talking Therapies services in the region, to ensure more patients got the best treatment first time. A sustained ten percentage point improvement has been achieved in recovery rates for people experiencing anxiety and depression, from 48% to 58%, compared to national rate of 45-48%.
