

Focus on Emergency Laparotomy and Best Practice Tariff

Wessex Emergency Surgery Network

This network meeting will focus on the newly launched Emergency Laparotomy Programme (ELP) and the challenge of implementing the Best Practice Tariff (BPT) in trusts.

This specific event will focus on those clinicians who will be involved with the Emergency Laparotomy Programme and the planning for the implementation of BPT.

Future meetings are likely to focus on Quality Improvement skills and be more useful for a wide range of staff interested in emergency laparotomy and emergency surgery in general.

This meeting aims to:

- ◆ Introduce and launch the Emergency Laparotomy Programme (ELP)
- ◆ Introduce the Best Practice Tariff (BPT)
- ◆ Support trusts to develop 'ideal' patient pathway
- ◆ Support trusts to identify areas for improvement
- ◆ Support trusts to develop quality improvement plans for building on pathways
- ◆ Leave with a written pathway and a plan for development

Network members will have the opportunity to join the Wessex Community of Safety and Improvement Practice (CSIP) and have access to LIFE, an IT platform designed to support connection and QI projects.

Connecting and sharing across Wessex to improve patient safety
