

## **Local Learning Systems for Covid Virtual wards**

This is an evolving change in model of care. As part of your system planning, consider how you will share your information both internally and externally.

Currently we have a national learning system run via the FutureNHS National Deterioration Forum for sharing resources and ask questions via the discussion forum:

<https://future.nhs.uk/NEWS2CN/view?objectId=858554>

National Learning network meetings are held every month on Tuesday afternoons 15:30-16:30. Dates and links can be found on the front page of the forum (12<sup>th</sup> Jan, 9<sup>th</sup> Feb, 9<sup>th</sup> March 2021)

<https://future.nhs.uk/NEWS2CN/grouphome>

Previous meeting recordings, notes and presentations can be found in the folders here:

<https://future.nhs.uk/NEWS2CN/view?objectID=22102416>

As Covid Virtual Wards are developed around the country it may become more practical to develop local/regional learning systems. Contact your local Patient Safety Collaborative (AHSN) for information about events in your region <https://www.ahsnnetwork.com/wp-content/uploads/2020/11/Covid-Virtual-Ward-AHSN-Network-contacts.pdf>
