Health at Home campaign toolkit

The COVID-19 outbreak means the public need to stay at home as much as possible. If they need an NHS service, they should try to do it online from home first (unless there is a serious or life-threatening emergency or they have been told to attend an existing appointment for ongoing treatment). The Health at Home campaign will signpost to useful information about how the public can contact their GP, order repeat prescriptions, manage their wellbeing and existing conditions – without leaving their home.

The Health at Home campaign directs the public to a dedicated web area: nhs.uk/health-at-home

This toolkit is for use while Government guidance for the public and vulnerable groups is to stay at home to manage the spread of COVID-19.

This toolkit includes the following content and resources:

- Newsletter copy
- Short external newsletter copy
- Longer external newsletter copy
- Internal newsletter copy
- Website news copy
- Social media posts and assets

Further resources are likely to be added over the coming weeks, so please keep an eye on cascade channels for additional resources.

Thank you for your support in cascading this messaging via your channels.
Manage your health and wellbeing at home

The coronavirus (COVID-19) outbreak means you should only leave your home if it's essential, unless you feel very unwell or you are told to attend an existing appointment for ongoing treatment. While you are at home it's still easy to get NHS help using your smartphone, tablet or computer. There is a useful online page which gives information on how to contact your GP, order repeat prescriptions, manage long-term condition and maintain your mental and physical wellbeing.

Find out more at: nhs.uk/health-at-home

Internal newsletters for health and care staff

Health at Home

A new campaign has been launched to help people manage their health at home and easily access NHS services online. The Health at Home webpage gives information on how to:

- contact your GP
- order repeat prescriptions
- manage long-term conditions
- maintain your mental and physical wellbeing

This information can be accessed at: nhs.uk/health-at-home

Managing your health at home

The coronavirus (COVID-19) outbreak means you should only leave your home if it's essential, unless you feel very unwell or you are told to attend an existing appointment for ongoing treatment. While you are at home it's still easy to get NHS help using your smartphone, tablet or computer.

The Health at Home webpage has information letting you know how to:

- contact your GP
- order repeat prescriptions
- manage long-term conditions
- maintain your mental and physical wellbeing

If you need an NHS service, try to do it online first. If you cannot get what you need this way try asking a friend or family member to help you, or speak to your GP surgery on the phone.

Find out more at: nhs.uk/health-at-home

[Insert information appropriate to your local organisational response / COVID-19 services as applicable]

Social media posts and assets

Below are a number of social media posts and assets for use on your Twitter, Facebook and Instagram. There are a number of social media accounts you can tag in your posts if you would like to:

<table>
<thead>
<tr>
<th>Twitter</th>
<th>Facebook</th>
<th>Instagram</th>
</tr>
</thead>
<tbody>
<tr>
<td>NHS Website Twitter @NHSUK</td>
<td>NHS Website Facebook @NHSWebsite</td>
<td>NHS UK Website Instagram @NHSWebsite</td>
</tr>
<tr>
